#### **Use of Non-GAAP Financial Information**

This press release contains non-GAAP financial measures. Ultimate believes that non-GAAP measures of financial results provide useful information to management and investors regarding certain financial and business trends relating to Ultimate's financial condition and results of operations. Ultimate's management uses these non-GAAP results to compare Ultimate's performance to that of prior periods for trend analyses, for purposes of determining executive incentive compensation, and for budget and planning purposes. These measures are used in monthly financial reports prepared for management and in quarterly financial reports presented to Ultimate's Board of Directors. These measures may be different from non-GAAP financial measures used by other companies.

These non-GAAP measures should not be considered in isolation or as an alternative to such measures determined in accordance with generally accepted accounting principles in the United States (GAAP). The principal limitation of these non-GAAP financial measures is that they exclude significant expenses that are required by GAAP to be recorded. In addition, they are subject to inherent limitations as they reflect the exercise of judgments by management about which expenses are excluded from the non-GAAP financial measures.

To compensate for these limitations, Ultimate presents its non-GAAP financial measures in connection with its GAAP results. Ultimate strongly urges investors and potential investors in Ultimate's securities to review the reconciliation of its non-GAAP financial measures to the comparable GAAP financial measures that are included in this press release (under the caption "Unaudited Reconciliation of Non-GAAP Financial Measures to GAAP Financial Measures") and not to rely on any single financial measure to evaluate its business.

Ultimate presents the following non-GAAP financial measures in this press release: non-GAAP operating income (loss), non-GAAP net income (loss) and non-GAAP net income (loss) per diluted share. We exclude the following items from these non-GAAP financial measures as appropriate:

Stock-based compensation. Ultimate's non-GAAP financial measures exclude stock-based compensation, which consists of expenses for stock options and stock awards recorded in accordance with ACS 718 (formerly SFAS 123(R)). For the three months ended March 31, 2010, stock-based compensation was \$3.4 million on a pre-tax basis. For the three months ended March 31, 2009, stock-based compensation was \$3.3 million on a pre-tax basis. Stock-based compensation expenses are excluded from the non-GAAP financial measures because they are non-cash expenses that Ultimate does not consider part of ongoing operations when assessing its financial performance. Ultimate believes that such exclusion provides meaningful supplemental information regarding Ultimate's operating results because these non-GAAP financial measures facilitate the comparison of results of ongoing operations for current and future periods with such results from past periods. The dilutive effect of all outstanding options is included in the calculation of pre-tax income (loss) and net income (loss) per diluted share on both a GAAP and a non-GAAP basis.

Amortization of acquired intangible assets. In accordance with GAAP, operating expenses include amortization of acquired intangible assets over the estimated useful lives of such assets. For the three months ended March 31, 2010, the amortization of acquired intangible assets was \$74 thousand. For the three months ended March 31, 2009, the amortization of acquired intangible assets was \$46 thousand. Amortization of acquired intangible assets is excluded from Ultimate's non-GAAP financial measures because it is a non-cash expense that Ultimate does not consider part of ongoing operations when assessing its financial performance. Ultimate believes that such exclusion facilitates comparisons to its historical operating results and to the results of other companies in the same industry, which have their own unique acquisition histories.
