SOFTWARE

People first.

**TR** Score 8.8 out of 10

## Trusted Takeaway:

UltiPro is a comprehensive, centralized HCM Suite solution. It includes traditional HR modules (payroll admin, benefits admin, local and global compliance, employee records, analytics) as well as strategic HR functions (talent mgmt, learning mgmt, employee engagement surveys, and workforce mgmt). UltiPro is used by clients across multiple industries including Hospital & Healthcare, Professional Services, Financial Services, and Computer Software.

## User Favorites:

- + Business Intelligence/Reporting
- + Ease of Use
- + Highly Configurable
- + Customer Service
- + Payroll Engine

"UltiPro is an amazing product! I have used it for over a decade from the client-side and the provider-side. One of the most admirable values of UltiPro is the tireless commitment to customer service and the willingness to make things right! The product is constantly improving and the customers play a big part in that."

—**Jameshia Welch**, Employment Services Supervisor  
Allegiant Air

"UltiPro Core is a great overall HRIS product. It provides organizations with the tools needed to be successful in many HR activities. It also can accommodate small organizations and very large ones. UltiPro is also well suited for organizations that require robust reporting and automation"

—**Paul Idols**, HR Analyst | TCW
